ORACLE BI

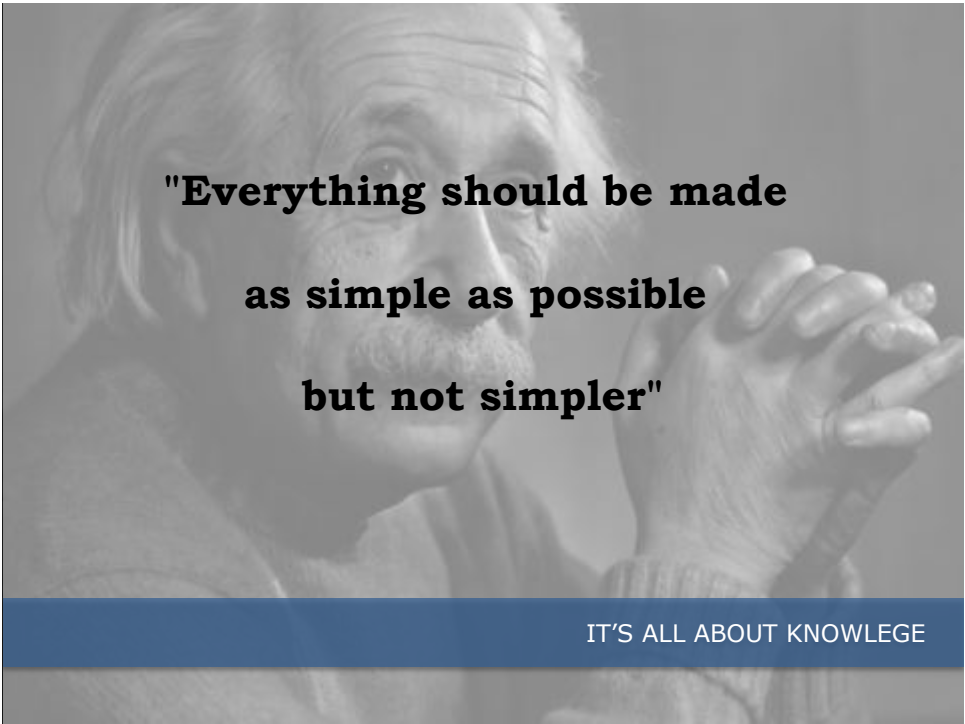

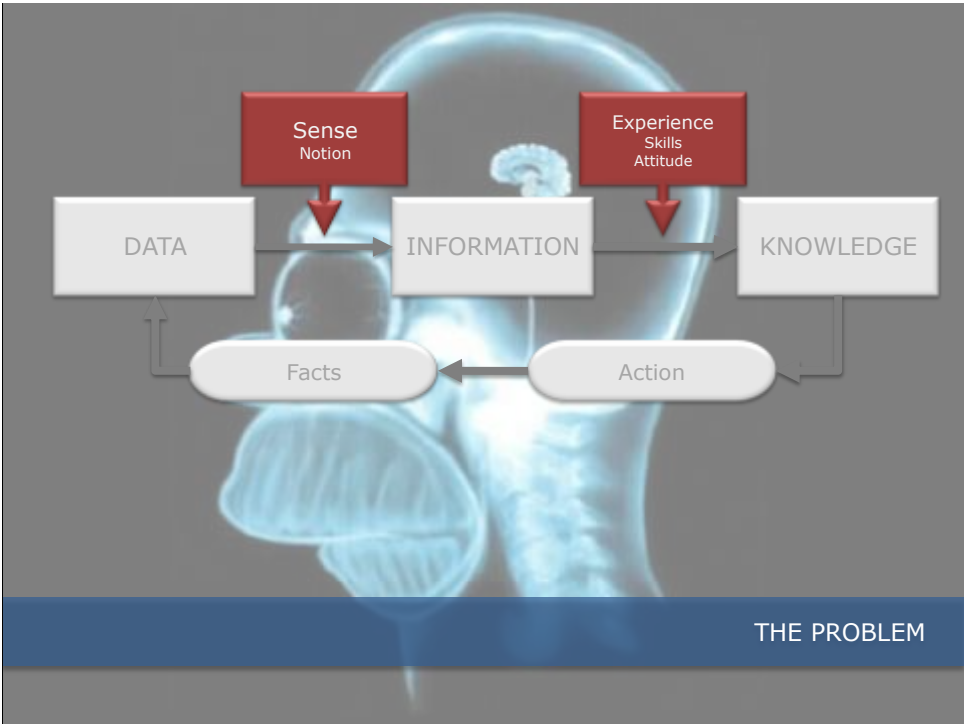

The collage features a background image of a clock face. Overlaid on the left is a snippet of a Gartner article titled "Poor communication to blame business intelligence failure, say analysts". The article text states: "Between 70% to 80% of corporate business intelligence projects fail, according to a new survey by analyst firm Gartner. A combination of poor communication between IT and the business, not asking the right questions or to think about the real needs of the business, mean intelligence (BI) projects fail to deliver, the firm says." Below the text is the Gartner logo. To the right of the article is a cartoon titled "off the mark" by Mark Parisi, with the URL "www.offthemark.com". The cartoon depicts a man standing at a whiteboard with a line graph that is trending downwards. He is saying, "IT GETS WORSE... FOLLOW ME TO THE BASEMENT...". Several people are seated at a table in the foreground, looking at the whiteboard. The cartoon is signed "Mark Parisi" and "comics.com".

BI FAILURE RATE

A grayscale image of Albert Einstein's face and hands is shown. Overlaid on the image is the following quote in bold black text: "Everything should be made as simple as possible but not simpler".

IT'S ALL ABOUT KNOWLEGE

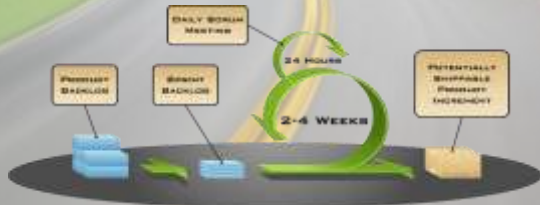

METHOD

ability to react on change with focus and total control

AGILE

ability to react on change with focus and total control
